Amfit Digitizer

Design **custom** Orthotics to fit **perfectly**… with **ease**, **accuracy**, and **speed**.

Perfect-fitting foot orthotics. Amfit's Digitizer measures the entire plantar surface of the foot giving you precise data to make the best foot orthotics.

Our place or yours. Amfit's milling options lets you make orthotics in your facility or use our central fabrication services, which boasts the industry's fastest turnaround and excellent pricing. Either way, you have complete control. We make no modifications to the design file so you get exactly what you specified.

The Digitizer is a powerful tool.

You can expand your business and increase your profits—without huge overhead costs. It gives you the flexibility and portability to meet all the needs of both professionals and patients.

Your purchase includes on-site set up and training, as well as a two-year limited warranty.

Please ask for a copy of Amfit's warranty for complete information.
