IMPERO STYLE
The timeless classic

“IMPERO STYLE” by **Giulini** responds to the never-ending desire for classic and timeless shapes, combined with the modern values of functionality and elegance. The Collections were decorated with precious details, in pursuance of a simple but sophisticated luxury: **Swarovski Elements** and **Swarovski Elements Black** enhance the elegance of a timeless bathroom.
A style which fascinates the most refined lovers of aesthetic.
The collection **PRAGA CRYSTAL** creates a modern recombination of chrome taps and black crystals which meets the charm of tradition.
The golden collection **PERSIA CRYSTAL** and the chrome-plated or bronze-plated **ODESSA CRYSTAL** are expression of a timeless style, reached through the reinterpretation of neoclassical shapes.
The contemporary collection **GIÒ**, decorated with Swarovski Elements, unifies the new vision of the bathroom with classical lines, in a perfect fusion of rationality and class.

“Impero Style” is a project in collaboration with **Olympia Ceramica**, a perfect “wedding” between sanitary wares and tapware.
